| Were all questions answered, and information/summaries provided as applicable? | Yes. Question B is related to hot spots, and the question was answered with a "No." Is this correct? If this is correct, that's fine. The root of my question more so pertains to asking if Arlington has identified "hot spots" in the MS4 jurisdiction at all. I skimmed through the Stormwater Management Plan that was submitted along with the annual report, and I did not see any mention of hot spots.                                                                                                                       |  |  |  |

| Were all questions answered, and information/summaries provided as applicable? | Yes. Question D is related to dry weather screenings of outfalls. This question was also answered as "No." Does the Town conduct dry weather screenings of outfalls at all? If so, what is the frequency? The MS4 permit does not specifically state that dry weather screenings be conducted. Instead, the permit implies that dry weather screenings are an effective tool to detect illicit discharges. Section 5 also states that no illicit discharges were reported or discovered during this reporting year. Is that correct? |  |  |  |

| Were all questions answered, and information/summaries provided as applicable? | Yes. Section 12 (Enforcement) asks if MS4 staff have the authority to issue various types of enforcement actions. Other than Notices of Violation, none of the boxes were checked. Does Arlington as an MS4 have the authority to issue the other types of enforcement actions listed (i.e. stop work orders, civil penalties, etc.). I see on the annual report that Notices of Alleged Violations are issued. Also in Section 12, it is stated that there is no electronic tool for tracking enforcement options. Do the MS4 have any tool for tracking enforcement actions, such as repeat or chronic violators? |  |
